The Adapta.Local.CIMAC project, applied for the ' Small Grant Scheme # 3 - Projects to reinforce climate change adaptation at local level ', launched under the Environment Program, Climate Change and Low Carbon Economy (Environment Program), has a duration of 24 months, a total cost of € 225 325.00, and is cofinanced at 85% (€ 191,526.25) by the Financial Mechanism of the European Economic Area (MFEEE / EEA Grants).

This project, led by CIMAC - Intermunicipal Community of Alentejo Central, in partnership with CEDRU - Centre for Studies and Urban and Regional Development, Ltd., and ID Norway, has as main objectives:

- To promote the integration of the Intermunicipal Plan for Adaptation to Climate Change in the Alentejo Central at the municipal level;

Program Operator:

Promoter:

Partners:

Iceland
Liechtenstein
Norway grants

- To provide the municipalities of Central Alentejo with a strategic and operational instrument for adapting to climate change that increases local resilience;
- To promote the integration of adaptation to climate change in the Territorial Management Instruments;
- To define an operational framework for adapting to climate change to be implemented by 2030;
- To increase the adaptive capacity of municipalities by promoting the training of municipal technicians in the field of local climate adaptation;
- And to increase the sensitivity and preparedness of local and regional actors to deal with the implications of climate change.

Through the Agreement on the European Economic Area (EEA), Iceland, Liechtenstein and Norway are partners in the internal market with the Member States of the European Union.

As a way of promoting a continuous and balanced strengthening of economic and trade relations, the parties to the EEA Agreement have established a multiannual Financial Mechanism, known as the EEA Grants.

The EEA Grants aim to reduce social and economic disparities in Europe and to strengthen bilateral relations between these three countries and the beneficiary countries.

For the 2014-2021 period, a total contribution of € 2.8 billion has been agreed to 15 beneficiary countries. Portugal will benefit from a budget of 102.7 million euros.
